Part II. Question 1 - Description of Activities and Programs

The Neutron Scattering Society of America, a District of Columbia nonprofit corporation (the "NSSA"), is formed to advance neutron scattering research in the United States and to promote the use of neutron scattering in science, engineering and technology through sponsoring and funding awards, grants, educational programs and workshops related to neutron scattering and scientific research in neutron science.

To this end, the NSSA's activities will primarily include developing, sponsoring and hosting educational programs, seminars and informational presentations:

- a. Biennial American Conference on Neutron Scattering: In June 2002, the NSSA will initiate a biennial American Conference on Neutron Scattering in order to stimulate, promote and broaden the use of neutron scattering. The inaugural four-day conference is planned for June 23-27, 2002, in Knoxville, Tennessee. The conference will serve as an educational meeting for users and potential users of neutron scattering facilities in the U.S. and as a forum for scientific exchange on a variety of neutron science, engineering and technology topics. A copy of the conference program and agenda is enclosed with this 1023 application. The registration fee for nonstudent attendees to attend and participate in the conference seminars and workshops is \$250 and, for students, the registration fee is \$100. The NSSA will also likely make the written materials from conference seminars and workshops available for purchase by NSSA members or other persons or institutions interested in neutron scattering research and developments. The conference is being planned, organized and run by the NSSA officers and members.
- b. Informational Presentations: Officers of the NSSA give presentations, typically several times per year, regarding the public interest in, capabilities of, and available facilities for neutron scattering at national and international scientific meetings, at neutron scattering summer schools held in the U.S. for graduate students, and when requested, before U.S. government committees. Members of the NSSA have also manned a booth at the American Physical Society meeting held in March of each year to provide meeting attendees with information about national neutron scattering facilities in the U.S., and the type of scientific research that can be performed at these facilities. In future years, the NSSA plans to expand this activity to include other scientific meetings, such as the Materials Research Society Spring and Fall meetings. NSSA and its members also work with academic and educational institutions throughout the country to encourage more students to consider neutron science and technology as a career choice. To support more student involvement, the NSSA will also raise funds to assist students in attending the NSSA biennial American Conference on Neutron Scattering as well as other scientific meetings, conferences and summer schools related to neutron scattering research.

- c. Web site: Officers of the NSSA maintain a public website, www.neutronscattering.org, that provides information about the organization and its activities, links to neutron laboratories and resource information, and an on-line membership application to join the organization.
- d. Membership alerts and newsletter: Officers of the NSSA correspond occasionally with members of the organization by mail or email regarding recent or upcoming events or legislation relevant to neutron scattering research.

To further its objectives of promoting and broadening the use of neutron scattering in science and technology and of encouraging more persons to engage in neutron scattering research and development efforts, the NSSA hopes to establish scholarships and awards for individuals interested in pursuing neutron scattering research. The organization plans to sponsor a national prize in neutron science named after the 1994 Nobel Laureate in Physics, Dr. Clifford G. Shull, whose work was in the field of neutron scattering. The award will help raise public awareness of neutron scattering and its benefits to society. Although the NSSA did not establish the Clifford G. Shull Memorial Scholarship Fund at Carnegie Mellon University, it has encouraged its members to contribute to the fund. The NSSA may establish similar scholarship funds at specific educational institutions where the educational institution will administer the fund and determine recipients based upon agreed criteria.

Part II, Question 3 – Describe the organization's fundraising programs.

To date, NSSA officers have solicited funds from various governmental agencies and corporations to support the first American Conference on Neutron Scattering. In the future, the NSSA plans to solicit donations from its membership and corporations to support the endowment of the Clifford Shull Prize. On an ongoing basis, the NSSA will request funds from individuals, corporations, foundations and government agencies to support the biennial conference and other activities of the NSSA.

Part II, Question 4 – Names and addresses of Directors and Officers and compensation provided if any.

Part II, Question 6 – Does or will the organization directly or indirectly engage in any of the following transactions with any political organization or other exempt organization other than a 501(c)(3) organization?

The NSSA will receive funding grants from Iowa State University (a 501(c)(3) entity) and a number of government agencies. More detail regarding the specific amounts and agencies is described in the Notes to the Financial Data in Part IV.

Part II, Question 13 – Does or will the organization attempt to influence legislation?

In its efforts to promote neutron scattering in the U.S., the NSSA may inform its membership through emails or letters of pending relevant Congressional legislation or

other government activities associated with the national neutron scattering facilities and take a position regarding such legislation or activities. On occasion, officers of the NSSA have been asked to speak before government committees and asked to voice an opinion regarding pending government activities and its impact on the NSSA membership, or the state of U.S. neutron research. However, such activities are expected to make up less than 1% of the time and resources of the total activities of the organization.

Schedule H. Organizations Providing Scholarship Benefits, Student Aid, etc., to Individuals

- 1a** Describe the nature and the amount of the scholarship benefit, student aid, etc., including the terms and conditions governing its use, whether a gift or a loan, and how the availability of the scholarship is publicized. If the organization has established or will establish several categories of scholarship benefits, identify each kind of benefit and explain how the organization determines the recipients for each category. Attach a sample copy of any application the organization requires individuals to complete to be considered for scholarship grants, loans, or similar benefits. (Private foundations that make grants for travel, study, or other similar purposes are required to obtain advance approval of scholarship procedures. See Regulations sections 43.4945-4(c) and (d).)

The NSSA will provide scholarship aid to some of the participants of the first American Conference on Neutron Scattering (ACNS), particularly students, postdoctoral students and junior college/university faculty in the U.S. to defray their expenses incurred in attending the ACNS. The NSSA anticipates providing 85 individuals such scholarship aid at an average cost of \$1080/person. Such scholarship assistance is publicized with the ACNS registration materials (see online at www.sns.gov/acns). Applicants are required to complete a written request in which they must detail their interest in neutron science, their need for scholarship assistance and estimated costs and expenses to attend the ACNS. The applications are reviewed by a selection committee comprised of the NSSA officers and the ACNS planning committee.

- b** If you want this application considered as a request for approval of grant procedures in the event we determine that the organization is a private foundation, check here: ☐ ☒ **X**
